

IMPORTANT INFORMATION

The Sayville Food and Nutrition Department follows the Meal Charge Policy which was adopted by the Sayville Board of Education on September 16, 2010. Please go to www.sayvilleschools.org to view the policy.

Over the school year we have seen an increased number of students charging meals throughout the district. Our policy ensures that no student will ever go hungry and we never put any student in an embarrassing situation. However, we also need to ensure that student charges are paid back in a timely fashion and that charges are limited per student.

In accordance with our policy students are permitted to charge up to 5 meals. Once a student exceeds the charge limit we will provide a cheese or peanut butter and jelly sandwich, fruit, vegetable and milk at lunch. The student's account will be charged for the meal accordingly. Please note a student **will not** be permitted to get anything other than the sandwiches listed if the account has 5 or more charges.

Therefore, please be sure to pay off any balance due that your child(ren) might have. As a reminder, you may access your children's Nutrikids accounts at www.myschoolbucks.com free of charge to inquire about their current balance and/or purchases. If you have not yet registered on this website it is easy to do and it is quite convenient. Once you register yourself you just need to add your student(s) by inputting their full 8 or 9 digit Student ID# which you can find on a report card or progress report.

Should you have any questions either about the My Schoolbucks Website or your student's current balance please feel free to contact the Food and Nutrition Department at (631)244-6555.

Thank you for your cooperation in this effort.
