

SAYVILLE HIGH SCHOOL BREAKFAST OF CHAMPIONS

THIS CERTIFICATE IS AWARDED TO:

Michael Nyman

Simply put, Michael Nyman is a math and science kid. He lights up when he shares new information he's learned or researched. Despite his success in courses like AP Physics and AP Calculus, his excitement for the humanities has not been as passionate. In past years, Michael struggled with many aspects of these courses, but he remained determined to do well. More often than not, students run away from academic areas they struggle with. Michael has done the exact opposite. If I identified an area of weakness, he wanted to practice and learn strategies that would help him improve. Knowing that his goal to further his education in science and math would require strong skills in reading and writing, Michael accepted the challenge and has shown more growth than I would have ever predicted two years ago. Michael's readiness to meet the challenges he will face in college is mostly due to the support of his family, and his desire to consistently improve. I congratulate Michael on this accomplishment and look forward to hearing about the many successes still yet to come.

Given this 17TH day of May, 2016

Assistant Principal

Ms. Loriston
